

EYOS TENDERS

EXPEDITION SERVICES

EYOS Tenders works extensively with
Cruise Companies · Expeditions Ships · Private Yachts · Owners
Captains and Yacht Management Companies

ABOUT EYOS TENDERS

EYOS tenders have over 30 years experience working in and working for the Expedition cruise market. We have delivered, built and driven expedition boats on and around all seven continents and have a wealth of experience in what does and doesn't work and what is needed to run successful trips in these areas.

Let us help you equip your vessel properly, and offer you a worldwide support, backup, training and spare part facility that is second to none. We can offer you onsite training in boat set up, expedition set up and repairs in locations to suit, and we also offer specialist Zodiac Driver Training Courses in conjunction with Zodiac Milpro.

ZODIAC MILPRO

EYOS Tenders are a certified Zodiac Milpro dealership and service center. We have been working with Zodiac as the best Expedition Boats for more than 25 years and have been involved in development and upgrades in conjunction with the factory. The Standard Models are the MKIV, V and VI, as well as the FC580 Expedition. (We are also able to supply Jones Act Compliant boats for use in US waters.)

All photos showing tenders are supplied by EYOS.

However, there are a huge variety of boats that may well suit your needs. Let us guide you to the right decision. We will work with you to get the best design layouts. There are a wide variety of additional items and upgrades that you can utilise, with regards to passenger comfort, fuel supplies and storage and we can customise these to best suit your purposes.

All of our technicians are Zodiac MilPro certified and trained to be able to create a perfect set up, we can also supply and come onboard your vessel to manage the set up and to give training in operations and lifting.

We are also Yamaha Engine agents and we would recommend these engines in all conditions. However, we can supply all other engine brands.

All products ordered and delivered by EYOS tenders will come with a dedicated tool kit prepared by EYOS Tenders to include all tools necessary for the safe set up and maintenance of your boats.

CUSTOM EXPEDITION TENDERS

EYOS tenders can help you design the perfect expedition tender for your ship. We have worked on designs with many well know designers and boat builders and we will come up with the design concept that can be built and completed for you. We can design multi-function tenders to be able to cover all of your needs or specific tenders for certain uses.

Which can convert to a dive support boat or a beach club platform

SETUP, SUPPORT & TRAINING

With ships operating on all the oceans and seas around the planet, it can be often hard to get the support you need. EYOS has many years of experience of working with Expedition Cruise Vessels and large Superyachts, we are used to having to work with tight schedules and out of the way places.

All of our technicians are trained and certified by Zodiac Milpro and have Yamaha engine maintenance courses

We can offer a selection of services to help in all areas of your Expedition Operation.

- Supply of Zodiacs and Engines: Because we supply Zodiacs to many vessels all over the world we are able to offer extremely competitive prices.
- On ship set up: We can come to you, set up the boats onboard, and train technicians in maintenance and servicing
- Spare Parts Service: We can advise on spare part packages needed to run a busy season and can supply replacement parts through the world.
- Because we have experience of working on vessels all over the world, our staff will happily assimilate into your crew for their time onboard.

POLAR CODE: PERSONAL & GROUP SURVIVAL KITS

The mandatory Polar Code, for ships operating in Arctic and Antarctic waters, entered into force on 1 January 2017, marking a historic milestone in the work of the International Maritime Organization (IMO) to address this key issue. Its requirements, which were specifically tailored for the polar environments, go above and beyond those of existing IMO conventions such as MARPOL and SOLAS, which are applicable globally and will still apply to shipping in polar waters.

EYOS Tenders produce and supply Personal Survival Kits and Group Survival Kits that meet with IMO guide lines for the protection of crew operating in Arctic and Antarctic ice covered waters.

Kits are personalised as per the requirement of each vessel, but can consist of the following:

Head protection (VP)* 1, Neck and face protection (VP) 1, Hand protection Mitts (VP) 1 pair, Hand protection – Gloves (VP) 1 pair, Foot protection – Socks (VP) 1 pair, Foot protection Boots 1 pair, Insulated suit (VP) 1, Approved immersion suit 1, Thermal underwear (VP) 1 set, Handwarmers (240 hours), Sunglasses 1 pair, Survival candle 1, Matches 2 boxes, Whistle 1, Drinking mug 1, Pen knife 1, Handbook (Arctic Survival) 1, Carrying bag 1

*VP means vacuum packed

Group Survival Kits are based on individual requirements, but we will assist in the interpretation of the guide lines and put together kits based on this. Please contact us for more details.

EXPEDITION SUPPLIES

Besides Zodiacs, Modern Expedition cruises also offer a lot more options. We offer a one Stop Shop for all your expedition needs and supply Kayaks (both hard and inflatable) Lifejackets for all conditions, Emergency equipment, Tents for Camping, Cold weather clothing, Marine VHF radios, inflatable landing platforms and beach clubs. We are also stockists for Yamaha Jet Skis and SeaBob water toys.
